Requirements Section

Business Justification

Problem Description

Need to enhance the Argus system to provide the ability to support an EGWP/SWRP plan that is defined with a deductible limit that is different than the Part D Defined Standard set by CMS.

Completion Criteria

Argus will provide the ability to process claims with Part D SWRP benefit and will apply appropriate member cost share based upon the plan's defined EGWP/SWRP deductible limit during the adjudication of the claim.

Assumptions

1. These project requirements are applicable for claims processing where a member is enrolled in a Medicare Part D plan and has a supplemental EGWP/SWRP benefit that wraps around the member's Part D defined standard benefit.
2. This project impacts EGWP/SWRP plans that have defined an EGWP/SWRP deductible limit different than the Part D defined standard benefit limit.
3. Do not impact existing claims processing logic for EGWP/SWRP plans that do not deviated from the Part D defined standard benefit limit.

Requirements

Business Need/Feature 1

Provide the ability to assign an SWRP limit.

Detailed Requirements

Requirement 1.1

Provide ability to assign an EGWP/SWRP benefit deductible limit that is different than the Part D defined standard benefit as set by CMS.

Requirement 1.2

Create a new plan type option "SDD" in GUI Deductible Plan to utilize for the EGWP/SWRP deductible limit.

Business Need/Feature 2

Ability to, or not to, apply Part D deductible dollars to the SWRP limit.

Detailed Requirements

Requirement 2.1

Provide the ability to accumulate deductible drug spend dollars up to the EGWP/SWRP plan deductible limit.

Business Need/Feature 3

Ability to process a claim against the Part D phase limits in addition to the claim processing against the SWRP limit.

Detailed Requirements

Requirement 3.1

Do not impact existing claims processing logic to process a claim using the Part D defined standard and EGWP/SWRP phases.

Requirement 3.2

Provide the ability to calculate member cost share at 100% of drug spend dollars while under the EGWP/SWRP deductible limit.

Requirement 3.3

Provide the ability to assign the appropriate member cost share once the EGWP/SWRP deductible limit has been reached.

Business Need/Feature 4

Ability to determine the difference between what the member paid in SWRP and the Part D member amount and populate the difference in PLRO.

Detailed Requirements

Requirement 4.1

Utilize existing claims processing logic to determine the difference between the member's cost share in EGWP/SWRP and the member's cost share in Part D and populate the dollar amount in PLRO.

PLRO will reflect positive or negative dollar amounts

Business Need/Feature 5

Ability to charge SWRP member calculated.

Detailed Requirements

Requirement 5.1

Provide the ability to assign the appropriate member cost share once the EGWP/SWRP deductible limit has been reached.

Business Need/Feature 6

Ability to charge the lesser of Part D member calculated or SWRP member calculated.

Detailed Requirements

Requirement 6.1

Do not impact existing claims processing logic used to determine the lesser of Part D member calculated cost share or EGWP/SWRP member calculated cost share.

Business Need/Feature 7

Ability to handle claims splitting between Part D phases.

Detailed Requirements

Requirement 7.1

Do not impact existing claims processing logic when a claim straddles between Part D phases.

- When Part D DD1 Copay\IC1 Copay, and claim is split between DD1 & IC1, only DD1 Copay is charged.
- When Part D IC1 Copay\CG Copay, and claim is split between IC1 & CG1, only IC1 Copay is charged.
- When both DD1\IC1 Copay to Copay and IC1\CG Copay to Copay, Copay from earliest phase is charged.

- When Part D DD1 Copay\Coinsurance / IC1 Copay\Coinsurance, and claim is split between DD1 and IC1, only DD1 Copay\Coinsurance is charged.
- When Part D IC1 Copay\Coinsurance / CG Copay\Coinsurance, and claim is split between IC1 & CG1, only IC1 Copay\Coinsurance is charged.
- When both DD1 Copay\Coinsurance / IC1 Copay\Coinsurance, and IC1 Copay\Coinsurance / CG Copay\Coinsurance, Copay\Coinsurance from earliest phase is charged.

Requirement 7.2

Invoke and apply Part D straddle rules when the claim straddles between Part D phases.

Business Need/Feature 8

Ability to handle claims splitting between SWRP phases.

Detailed Requirements

Requirement 8.1

Do not impact existing claims processing logic when a claim straddles between EGWP/SWRP phases.

- When SWRP DD1 Copay\IC1 Copay, and claim is split between DD1 & IC1, only DD1 Copay is charged.
- When SWRP IC1 Copay\CG Copay, and claim is split between IC1 & CG1, only IC1 Copay is charged.
- When both DD1\IC1 Copay to Copay and IC1\CG Copay to Copay, Copay from earliest phase is charged.
- When SWRP DD1 Copay\Coinsurance / IC1 Copay\Coinsurance, and claim is split between DD1 and IC1, only DD1 Copay\Coinsurance is charged.
- When SWRP IC1 Copay\Coinsurance / CG Copay\Coinsurance, and claim is split between IC1 & CG1, only IC1 Copay\Coinsurance is charged.
- When both DD1 Copay\Coinsurance / IC1 Copay\Coinsurance, and IC1 Copay\Coinsurance / CG Copay\Coinsurance, Copay\Coinsurance from earliest phase is charged.

Requirement 8.2

EGWP/SWRP straddle rules will only apply when the claim straddles between EGWP/SWRP phases.

Requirement 8.3

When a claim straddles the EGWP/SWRP (SDD) deductible limit the member's responsibility will be 100% up to the SDD limit plus the calculated EGWP/SWRP member cost share once the limit is met.

Business Need/Feature 9

Ability to charge the member one amount while under the SWRP limit and another once the SWRP has been met.

Detailed Requirements

Requirement 9.1

Provide the ability to apply 100% member cost share while under the EGWP/SWRP deductible limit.

Requirement 9.2

Provide the ability to assign the appropriate member cost share once the EGWP/SWRP deductible limit has been reached.

Business Need/Feature 10

Ability to preload dollars manually to the SWRP accumulation.

Detailed Requirements

Requirement 10.1

N/A

Note: This requirement will be partially satisfied by providing the ability to preload dollars via batch preload. See business need/feature 11 below

Business Need/Feature 11

Ability to preload dollars thru the batch preload process to the SWRP accumulation.

Detailed Requirements

Requirement 11.1

Provide the ability to preload dollars via a batch preload utilizing the new CHIX/HIM preload format.

Note: This requirement applies to the batch piece only and does not include any changes to 3270 online deductible preload

Business Need/Feature 12

Ability to display SWRP limits and SWRP accumulated dollars in DEDUCTPLAN.

Detailed Requirements

Requirement 12.1

Provide the ability to display the EGWP/SWRP (SDD) limits and the accumulated dollars in IPNS GUI deductible plan system.

All of the information on this page constitutes a trade secret, privileged or confidential information, as such terms are interpreted under the Freedom of Information Act and applicable case law. Copyright 2013 by Argus Health Systems, Inc.

Note: The requirement applies to the IPNS GUI piece only and does not include any changes for display in 3270 deduct plan at this time.

Business Need/Feature 13

Ability to report accumulated dollars correctly on the PDE.

Detailed Requirements

Requirement 13.1

Do not impact the ability to report dollars on the PDE including but not limited to the following:

- GDCB
- GDCA
- Patient Pay Amount
- Other TrOOP
- LICS Amount
- PLRO
- NPP
- CPP

Note: The amount(s) reported on the PDE will continue to follow CMS guidelines for the defined standard.

Business Need/Feature 14

Ability to continue processing SWRP as it is today.

Detailed Requirements

Requirement 14.1

Do not impact existing claims processing logic to process a claim using the defined standard Part D and EGWP/SWRP phases.

Business Need/Feature 15

Ability to continue allowing Auth to override SWRP copays..

Detailed Requirements

Requirement 15.1

Provide the ability to charge the auth copay once the EGWP/SWRP (SDD) limit has been met.

Requirements Work Flows

Out of Scope Requirements

1. Any changes to IPNS GUI and/or RxNova web applications will be excluded unless specified in the business needs/features stated above.
2. Any changes to 3270 online including but not limited to the following:
 - a. Manually updating deductible (preload) dollars
 - b. Changes for display in 3270 deduct plan at this time
3. Any changes required for EOB will be handled as a separate request as needed.
