12/13/2013	2.1	Feedback from PM	Jocelyn Jacobs

Business Justification

Problem Description

Today Argus does not have the ability to apply CMS Excluded drugs to SWRP Part D MOP. Humana sold a group with this functionality. Prior to selling this benefit Humana did check with Argus to see if this could be accommodated and Argus informed Humana at the time the functionality could be supported with additional coding.

Project Scope

In Scope	Item
S1	Allow CMS Excluded Drugs to: • apply to SWRP Part D MOP identified by an EA • exclude from Part B MOP identified by an EN • exclude from all MEDD which includes Part D TrOOP

All of the information on this page constitutes a trade secret, privileged or confidential information, as such terms are interpreted under the Freedom of Information Act and applicable case law.

Out of Scope	Item
N/A	

System Impacts	Item
SI1	Claims processing
SI2	Deduct
SI3	Pricing

Assumptions

1. This applies to RxNova only, as the coverage codes will be converted to RxNova by 1/1/2014.
2. No changes will be needed to Rework for this project. When an existing CMS Excluded claim is reworked after implementation of this project, the member dollars will apply to the SWRP Part D MOP and will NOT apply to the Part B MOP or TrOOP.
3. Setting the Deduct option in pricing will only have available the member's deduct phase prior to processing the current claim. It cannot take into consideration a current claim that will split to the next phase.

All of the information on this page constitutes a trade secret, privileged or confidential information, as such terms are interpreted under the Freedom of Information Act and applicable case law.

Requirements

Detailed Requirements

1. For RxNova, allow CMS Excluded Drugs to apply to SWRP Part D MOP (EA) and exclude from Part B MOP (EN) as well as MEDD which contains Part D TrOOP
 - a. Establish a new Enhanced Deductible option to exclude from Part D processing and apply to the Part D SWRP MOP (EA) and exclude from Part B MOP (EN)
 - b. Add a new record for the new option added to the database of RxNova Deduct processing. RxNova Claim Inquiry has a 50 character limit for the deduct option description. The proposed text for the new option is 'EXCLUDE MEDD AND APPLY TO MOP ONLY PARTD SWRP'.
 - c. Modify Enhanced Deductible to add logic for the new deduct option to exclude from Part D (MEDD) processing and apply to Part D SWRP MOP (EA) processing and exclude from Part B MOP (EN)
 - d. Update Pricing to set the new deduct option for the appropriate benefits. Benefits will be identified by a coverage code GOTM table that will also identify the buy up tables (up to 9 tables) for that coverage code as well as must be a CMS excluded drug.
 - e. Modify 3270/CICS claim Inquiry to display the new option description on the claim when set (19 character limit) 'MOP ONLY PARTD SWRP'
 - f. Modify GUI claim Inquiry to display the new option description on the claim when set (50 character limit) 'EXCLUDE MEDD AND APPLY TO MOP ONLY PARTD SWRP'
